This is my Drawing Workshop proposal targeted for teens.

Many tweens / teen patrons will love these workshops. I have notice from doing these workshops since 2008.

8 out of 10 teens who read and love Manga /comic books are inspired artists.

They love to draw or want to learn, to improve their skills and in search for guidance and my expertise.

We have many programs that will guarantee to peak your tweens / teens interests in participating.

(5) workshops-each participant will learn the tools creating an comic of (4) pages with their own original stories and will be placed into one book. Black and white ONLY.
